**Description:** Overview This sliding screen door handle and latch is non-handed and used by Academy Manufacturing and Better-Bilt as well as a variety of other manufacturers of roll formed aluminum or steel screen doors. The mounting holes for the handles are 3 in. on center. It contains an inside handle and an outside handle, latch and keeper. The spring-loaded latch is T-bird shaped and rotates up and down to engage or disengage the keeper (see Prime-Line parts A 127 or A 163).
