- Please refer to the line art drawing and compare to your needs before purchasing

Description: Overview Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. This roller assembly with M-shaped tension spring with a 1 Inch diameter steel ball bearing roller is used by a variety of patio door manufacturers. The heat treated tension spring is 2-5/16 Inch long and shaped like an M, giving it the tension needed by the screen door to slide properly. Order yours today and have your door slide like new
