

FHC Aluminum Screen Door Tension Spring With 1" Plastic Roller - For International Doors (2 Pack)

Item No. B517

Features, Advantages, and Benefits

- Used by Bay Mills screen doors and a variety of other sliding screen door manufacturers

- Straight 1-3/8 inch tension spring
- 1 inch diameter concave plastic roller
- Extruded aluminum body and nylon roller
- Mounting hardware is included for a quick and easy installation

Description: Overview Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. This rocker style spring tension roller assembly is used on International doors. It was used on International series 900, 925, 950 and newer. The body is extruded aluminum with a tension spring attached. It has a 1 Inch diameter high density polyethylene center grooved roller. Order yours today and have your door slide like new.
