Description: OverviewAre you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers.This high density polyethylene roller assembly was used on HiLite doors. It is a high density polyethylene bracket with a spring-loaded 9/16 Inch diameter flat edged high density polyethylene roller inside. Fits into a rectangle slot in the bottom of the door and is held in by the included screw. For the top roller assembly use Prime-Line part B 543. Order yours today and have your door slide like new.
