

FHC Keyed Sliding Glass Door Handle Set - Wood & Black Painted Diecast - Hook Style - Flush Mount - Fits 6-5/8" Hole Spacing (1 Set)

Item No. C1032

Features, Advantages, and Benefits

- INCLUDES – (1) Standard reversible flush mount for left or right-handed sliding glass doors. This handle fits 6-5/8” hole spacing and only works with hook style door handles. Fits all popular flush lock punch-outs.
- REPLACE OLD OR BROKEN DOOR HANDLES – When your door handle is broken, old or unsightly, don’t replace the door entirely, just get a new sliding glass door handle set! This door handle is a hook style with a flush mount and is keyed.
- EASY INSTALLATION – Installation is quick and easy, plus all fasteners and instructions are included – new door handles are well within reach! The handle set is non-handed, allowing it to be used on both left and right-handed patio sliding doors that are 1 in. to 1-1/8 in. thick, using 6-5/8” mounting hole centers.
- NON-HANDED CONSTRUCTION – The non-handed construction means that you can use this door handle set on both left and right-handed patio sliding doors.
- COMPLEMENTS YOUR SLIDING PATIO DOOR – This hook style door handle is constructed of mixed materials, including a surface mounted wood pull, making it the perfect choice for your black or dark bronze sliding door.

Description: Overview This sliding patio door handle set is constructed of mixed materials including wood and diecast components, and it features a keyed exterior pull. The outside locking pull and the inside supports are constructed of diecast and come finished in a black painted color and chrome finish respectively. The inside pull is made of natural wood and is finished in a smooth, clear finish. This handle set is a flush mounted, hook style handle set and it is non-handed allowing it to be used on both left and right-handed patio sliding doors. This handle set fits all popular flush lock punch-outs with a 6-5/8 in. hole center spacing, and it is used to replace damaged or missing flush mounted, hook style handle sets on sliding glass doors ranging from 1 in. to 1-1/8 in. thick door frames. This item is packaged complete with a keyed cylinder lock, 2 keys and 4 different hook lengths. Installation instructions and all fasteners necessary for the installation of this handle set are included in packaging, including the 2-11/16 in. keeper that mounts on the jamb. Product selection tip: besides matching the style and type of locking mechanism, the other main specification to match is the measurement of the mounting hole centers, from center-2-center.
