Item No. C1091

Features, Advantages, and Benefits

- Used by a variety of sliding patio door manufacturers
- Non-handed, can be used on left or right sliding patio doors
- Mounting holes are 3-15/16 in. on center
- Black extruded inside handle with wood pull (color may vary on handle)

- Black diecast outside handle

Description: Overview This patio door handle comes with a black extruded aluminum inside handle with a hardwood pull attached. It can be used on either right or left-handed doors. Comes with a latch lever and a back diecast outside handle. The stamped steel lever with plastic thumb button will operate most mortise latches installed into the patio door. This is non-keyed but can be keyed by installing the Prime-Line part E 2000 lock cylinder into the outside handle. Used by a variety of patio door manufacturers.
