- Inside handle height is 1-13/16 in
- Outside handle is black extruded aluminum
- 4-15/16 in. mounting holes

- Non-handed
- Non-keyed (see Prime-Line part E 2071 to key this unit)

Description: Overview This bronze patio door handle is a surface with clamp latch style. Often found on older style patio doors, it is mounted on the door's inside frame and the clamp latch latches onto an extrusion (astragal) on the jamb. It has 1-13/16 in. handle height extruded aluminum inside handle. This clamp has a 3/16 in. profile but it is spring-loaded allowing 1/8 in. play in clamp profile height. The projection is 3/8 in.. The outside handle is a bronze low profile non-keyed handle. To key this unit order the Prime-Line part E 2071 lock cylinder.
