

**FHC Non-Keyed Sliding Glass Door
Handle Set - Black Diecast - Clamp
Style - Surface Mount - Fits 4-15/16”
Hole Spacing (1 Set)**

Item No. C1222

Features, Advantages, and Benefits

- **INCLUDES** – (1) Standard reversible surface mount for left or right-handed sliding glass doors. This handle fits 4-15/16” hole spacing and only works with clamp style door handles.
- **REPLACE OLD OR BROKEN DOOR HANDLES** – When your door handle is broken, old or unsightly, don’t replace the door entirely, just get a new sliding glass door handle set! This door handle is a clamp style with a surface mount and is non-keyed.
- **EASY INSTALLATION** – Installation is quick and easy, plus all fasteners and instructions are included – new door handles are well within reach! The handle set fits on doors measuring 1” to 1-1/2” thick. If mounting on thicker doors, longer screws need to be purchased separately.
- **NON-HANDED CONSTRUCTION** – The non-handed construction means that you can use this sliding glass door handle set on both left and right-handed patio sliding doors.
- **COMPLEMENTS YOUR SLIDING PATIO DOOR** – The clamp style latch system is constructed of diecast with a black painted finish, making it the perfect choice for your white sliding door.

Description: Overview If your sliding glass door handle is old, damaged or missing, don’t get a brand new door – just replace the door handle! This C 1222 non-keyed Sliding Glass Door Handle Set makes the DIY project a breeze. Installation is quick and easy, all fasteners necessary are included, and the set is non-handed, allowing it to be used on both left and right-handed patio sliding doors. It is a clamp style with a surface mount and fits 4-15/16” hole spacing. The handle set fits on doors measuring 1” to 1-1/2” thick. If mounting on thicker doors, longer screws need to be purchased separately. The door handle set is constructed of diecast materials with a painted black finish, perfect for your black sliding door. Installation is quick and easy! Instructions and all fasteners necessary for the installation of this sliding door handle set are included in packaging. Due to the surface mounting, no mortising is required. The outside non-keyed pull is different in shape than the inside pull, and it can be changed to a locking outside pull using Prime-Line’s model numbers E 2000 or C 1120 (purchase separately). *Product Selection Tip: Besides matching the style and type of locking mechanism, the other main specification to match is the measurement of the mounting hole centers, from center-2-center.
