

FHC 1-1/2" Steel - Sliding Door Roller Assembly - For Ador And Hilite (Single Pack)

Item No. D1585

Features, Advantages, and Benefits

- Used by Ador Hilite, and other sliding patio door manufacturers
- Used on metal framed patio doors

- 1-1/2 in. concave roller
- Stamped steel housing with steel ball bearing roller
- Durable steel construction

Description: Overview This is the replacement inner housing that fits into the Prime-Line part D 1545 outer housing. It has a 1-1/2 in. steel ball bearing roller installed in the stamped steel inner housing. If needed, the adjusting screw can be backed out of the old roller assembly, then the inner housing removed and replaced by this part. Used by Ador Hilite patio doors.
