

FHC 1-1/2" Steel Ball Bearing Sliding Door Roller Assembly (Single Pack)

Item No. D1588

Features, Advantages, and Benefits

- Used on Window Master sliding patio doors
- As the C-tab is positioned around the corner screw, it is captured by the side stile and bottom rail as the screw draws the two sides together
- 1-1/2 in. diameter concave roller

- Stamped steel housing and roller
- C-tab
- Rear adjusting screw

Description: Overview This is a C-tab patio door roller assembly with a 1-1/2 in. concave steel ball bearing roller. As the C-tab is positioned around the corner screw, it is captured by the side stile and bottom rail as the screw draws the two sides together. The housing is 9/16 in. wide and 1-3/8 in. tall with a 3/4 in. dimple width. Used on Window Master patio doors. It replaces the original K-tab style that is no longer available.
