- Stamped steel housing and tandem ball bearing rollers
- F-tab mounting
- Rear adjustment screw

Description: Overview This is a F-tab tandem roller assembly with two 1-1/8 in. steel ball bearing rollers. When the corner screw passes through the F-tab the assembly is captured by the side stile and bottom rail as the screw draws the two sides together. The adjustable stamped steel housing is 11/16 in. wide with a flare width of 7/8 in., 1-1/16 in. tall and 3 in. long. It has a low carriage allowing for easy door removal. Used by Merzon and a variety of other patio door manufacturers.
