- For Further Dimensional And Specification Information, Please See The Line Drawing

Description: Overview This Patio Sliding Door Mortise Lock by Prime-Line Products is constructed with a corrosion-resistant, stainless steel housing and stainless steel faceplate. It features a round-end face plate that serves as an adjustment feature for the hook's distance of projection. The keyway rests at a 45 degree position when the hook is fully extended in the locked position. The mounting holes are spaced apart at 3-11/16 in. on center. Fits on W and F manufactured handles.
