

## **FHC Step-On Door Holder - Diecast Aluminum - Spring-Loaded**

**Item No.** J4595

### **Features, Advantages, and Benefits**

- Typically used on commercial doors
- 3 Hole mounting for secure installation
- Foot operated
- Diecast aluminum

- Rubber tipped

**Description:** Overview This is a step-on designed plunger style door holder with a rubber tip. The painted aluminum diecast housing is operated with your foot and is spring-loaded. It has a rubber treadle on top for easy step-on application to lock the plunger down. The release mechanism is toe activated.
