- Many Popular Finishes Available
- (1) 1/2" Diameter Hole in Glass
- Uses M6 X 1.0 Threading

Description:

Glass Instructions

For 1/4" to 1/2" Thick Tempered Safety Glass.

Overview

FHC Shower Door Knobs are designed for frameless shower door installations. Built to last, our hardware is manufactured from high grade solid plated brass material for added durability and strength. Included with all mounting hardware for installation these low profile popular knobs do the job.

Care & Cleaning Guidelines

For best results, keep the following recommendations in mind when caring for your FHC shower door hardware. Your shower door should be dried daily with a soft towel or cloth to ensure its original finish. Do not use harsh cleaners or chemicals on the hardware, as many of the components are coated with a clear lacquer that will become damaged beyond repair. Always test your cleaning solution in an inconspicuous area prior to cleaning the entire hardware surface. Wipe surfaces clean using a soft, dampened cloth or sponge, and rinse completely with warm water immediately after applying the cleaning solution. Use only small amounts of liquid, gentle, cleaner. Never use abrasive products, sponges, or wire scrub brushes while cleaning hardware.

Material/Construction

High Quality Plated Solid Brass
