- Can be Installed with UV Bonding Adhesive
- Can be Installed on Walls Also
- (1) 1/2" Diameter Hole in Glass

Description: <h2>Glass Instructions</h2><p>For 3/8" to 1/2" Thick Tempered Safety Glass. </p><h2>Overview</h2><p>FHC Shower Robe/Towel Hooks are designed for frameless shower door installations. Built to last, our hardware is manufactured from high grade solid plated brass material for added durability and strength. Included with all mounting hardware for through glass installations. Robe/Towel Hooks can also be UV bonded to glass and can also be installed to walls with a hanger bolt that is sold separately. </p><h2>Care & Cleaning Guidelines</h2><p>For best results, keep the following recommendations in mind when caring for your FHC shower door hardware. Your shower door should be dried daily with a soft towel or cloth to ensure its original finish. Do not use harsh cleaners or chemicals on the hardware, as many of the components are coated with a clear lacquer that will become damaged beyond repair. Always test your cleaning solution in an inconspicuous area prior to cleaning the entire hardware surface. Wipe surfaces clean using a soft, dampened cloth or sponge, and rinse completely with warm water immediately after applying the cleaning solution. Use only small amounts of liquid, gentle, cleaner. Never use abrasive products, sponges, or wire scrub brushes while cleaning hardware.</p><h2>Material/Construction</h2><p>High Quality Plated Solid Brass</p>
