Description:

Glass Instructions

For 3/8" to 1/2" Thick Tempered Safety Glass.

Overview

FHC Ladder Style Shower Door Handles are design for frameless shower door installation. Built to last, our handle line is manufactured from heavy wall tubing for added durability and strength. The added handle height on heavy glass doors really makes an impressionable statement when installed. Included with all mounting hardware for installation these popular handles will easily install onto the glass.

Care & Cleaning Guidelines

For best results, keep the following recommendations in mind when caring for your FHC shower door hardware. Your shower door should be dried daily with a soft towel or cloth to ensure its original finish. Do not use harsh cleaners or chemicals on the hardware, as many of the components are coated with a clear lacquer that will become damaged beyond repair. Always test your cleaning solution in an inconspicuous area prior to cleaning the entire hardware surface. Wipe surfaces clean using a soft, dampened cloth or sponge, and rinse completely with warm water immediately after applying the cleaning solution. Use only small amounts of liquid, gentle, cleaner. Never
