

FHC 6" Center-to-Center Square Pull

Item No. PHSQ6X6

Features, Advantages, and Benefits

- FHC 6" Back-to-Back Square Pull Handle
- Modern Square Profile Design with Mitered Corners
- 6" CTC Hole Spacing (2) 1/2" Dia Holes in Glass
- Heavy Duty 3/4" Square Tubular Construction
- Many Popular Finishes Available
- 8" Center to Center Pull Handles Also Available

- Includes All Hardware For Proper Installation
- M6-1 Threading

Description: <h2>Glass Instructions</h2><p>For 1/4" to 1/2" Thick Tempered Safety Glass. </p><h2>Overview</h2><p>FHC Back to Back Square Pull Handles are design for frameless shower door applications. Built to last, our handle line is manufactured from heavy wall tubing for added durability and strength. The included plastic washers and grommets will safely protect the glass from coming into contact with metal. </p><h2>Care & Cleaning Guidelines</h2><p>For best results, keep the following recommendations in mind when caring for your FHC shower door hardware. Your shower door should be dried daily with a soft towel or cloth to ensure its original finish. Do not use harsh cleaners or chemicals on the hardware, as many of the components are coated with a clear lacquer that will become damaged beyond repair. Always test your cleaning solution in an inconspicuous area prior to cleaning the entire hardware surface. Wipe surfaces clean using a soft, dampened cloth or sponge, and rinse completely with warm water immediately after applying the cleaning solution. Use only small amounts of liquid, gentle, cleaner. Never use abrasive products, sponges, or wire scrub brushes while cleaning hardware.</p><h2>Material/Construction</h2><p>Brass</p>
