Description: <h2>Overview</h2><p>Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. This aluminum housing with spring-loaded arm with the 1 Inch high density polyethylene roller attached is used by a variety of patio door manufacturers. The roller arm is spring-loaded and adjusted by the adjustment sleeve and screw on top. Order yours today and have your door slide like new.</p>
