- Easy to install
- Please refer to the line art drawing and compare to your needs before purchasing

Description: Overview Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. This M-style tension spring roller assembly has a 1 Inch diameter steel ball bearing roller. The tension spring is 2-5/16 Inch long and heat treated and shaped like an M giving it the tension needed to allow the screen door to slide properly. It has a 1/8 inch locator pin that holds the roller assembly in a fixed position. Order yours today and have your door slide like new.
