- Stamped aluminum housing
- These have an easy push-in installation
- For best operation keep door rail clean

Description: Overview Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. These sliding screen door roller assemblies are constructed of stamped aluminum and include nylon wheels. The wheels feature concave (grooved) edges and have a 1 Inch diameter. Roller assemblies like these are used on sliding screen doors manufactured by Columbia doors, and many others. Order yours today and have your door slide like new.
