

FHC Zinc Diecast Left-Handed Sliding Window Cam Latch

Item No. F2510

Features, Advantages, and Benefits

- All components constructed of a durable diecast material
- Components come finished in a corrosion resistant, zinc plated finish, to include installation fasteners

- Designed for use with horizontal sliding windows, particularly those installed in older recreational vehicles (RV)
- Features a left handed application
- Easy to install with only a few simple tools
- For further dimensional and specification information, please see the line drawing

Description: Overview This cam latch is constructed from diecast and comes plated in a zinc finish. It features a left-handed design that can also be used on RV windows. Used on both sliding and vertically hung windows. Used to repair broken latches on both residential and recreational vehicle sliding windows. For best results, follow the installation instructions included with each package. These parts are easy to replace using only a few simple tools. For further dimensional information, please see the line drawing.
