Description: Overview This window sash lock is constructed of diecast and comes in a white, corrosion-resistant painted finish. These locks feature a deep offset latch and the latch tongue engages into the fixed rails of the upper sash. They have 2-1/4 in. hole centers, 3/8 in. hole backset, and a reach of 1/8 inch. These sash locks are commonly used on single-hung aluminum vertical sliding windows, manufactured by Krestmark, WinCo windows and a variety of other manufacturers.
