- Designed to fit 5/16 inch spindles only
- 2-11/16 inch projection from the operator
- Diecast metal with a bronze finish

- Please refer to the line art for dimensions and compare with your needs before purchasing

Description: Overview This is a casement crank handle that is bronze diecast and has a 5/16 inch bore spindle. Designed to fit most spindle operators with a 5/16 inch bore, such as the teardrop style casement operators (Prime-Line parts H 3505 and H 3511). It offers excellent torque for easy opening and closing of windows. The crank handle projects out from the operator 2-11/16 inches. **INSTALLATION NOTE:** use a small amount of mid-grade adhesive to secure the set screw to the spindle.
