

FHC Casement Window Locking Handle - Right Hand - Gray Painted

Item No. H3542

Features, Advantages, and Benefits

- Used on Right Handed Casement Windows (From Inside Looking Out)
- Mounting Holes are 2-3/8" on Center
- Sweeping Comfortable Grip
- Diecast Construction in Aluminum

- For Use on Double Hung Windows with a Narrow Center Rail
- Mounting Hardware Not Included
- A Phillips Head Screwdriver is Required for Installation

Description: Overview This is a right-handed casement locking handle in an aluminum finish with mounting holes 2-3/8 in. on center. The handle is diecast construction with the handle sweeping slightly to the left. This allows a more comfortable grip to open to the left when there are dual casement windows with a center rail dividing them.
