

# **FHC Universal Aluminum Casement Window Lock Keeper**

**Item No.** H3545

## **Features, Advantages, and Benefits**

- Used by a variety of sliding door manufacturers
- Mounting holes are 2-1/4 in. on center
- Slotted mounting holes allow for adjustment
- Stamped aluminum construction

- Non-handed for left or right sliding doors
- Mounting hardware included

**Description:** Overview This is a universal casement lock keeper used for the most common casement locking handles. The two elongated mounting holes are 2-1/4 in. on center, and allow it to be adjusted up or down to fit the installed locking handle. It is reversible and can be used for left-hand or right-hand casement lock handles.
