- Used By a Variety of Wood and Vinyl Window Manufacturers
- Non Handed for Left or Right Windows
- 8" Mounting Bracket
- Made of Stainless Steel

- 4 Bar Design
- Mounting Hardware Included
- A Phillips Head Screwdriver is Required for Installation

**Description:** Overview This is a pair of stainless steel 8 in. hinges used on casement or projecting windows. This type of hinge is used by a variety of window manufacturers of wood or vinyl casement windows. When selecting the correct hinge compare the length of the mounting bracket with the length of the bracket from the window hinge to be replaced. Also note whether there are 4 different bars; 3 actuating bars and 1 mounting bracket.
