Features, Advantages, and Benefits

- Die Cast Construction
- White Finish
- Left Handed Locking Handle
- Used on Double Windows with Narrow Center Rail

- Fasteners Included
- For Further Dimensional Information, Please See The Line Drawing

•
Description: Overview This is a left handed casement locking handle in a white finish with 2-3/8 inch mounting holes. The handle is diecast construction with the handle sweeping slightly to the left. This allows a more comfortable grip to open to the left when there are dual casement windows with a center rail dividing them. For the matching right hand casement locking handle see H 3718.
