

## **FHC Tee Handle Crank - 3/8" Bore - Champagne - Pella**

**Item No.** H3813

### **Features, Advantages, and Benefits**

- Used By Andersen Hardware and a Variety of Casement Operator Manufacturers
- Used to Replace Existing Handles That Have 3/8" Spindles
- Used to Replace Existing Handle When It Interferes with Mini-Blinds
- Diecast Construction with a Champagne Finish

- Tee Handle Design
- 2-Pack
- Slotted Head Screwdriver is Required for Installation

**Description:** Overview This is a diecast T-handle that universally fits Andersen casement operators. The 3/8 in. bore fits most operators with a 3/8 in. spindle and held firmly in place with the supplied set screw. This T-handle is champagne in color, and the design is often used to replace the normal crank handle when it interferes with window blinds.
