- Bottom Mounted
- Loop Slips Over Ball Head Screw to Secure Screen in Place

- Stamped Aluminum Construction with a Mill Finish
- 4-Pack
- Mounting Hardware Included
- A Slotted Head Screwdriver is Required for Installation

**Description:** Overview These screen latches are constructed of aluminum and come in a milled aluminum finish. This item includes steel ball head screws that act as keepers for the aluminum latches, and they feature slotted heads for easy installation. These latches are used on wooden single and double hung windows with aluminum screens, and they install easily onto the bottom sill of the wood frame. These screen bottom latches are used by many window manufacturers.
