

FHC Sent-27 Shoulder Screw W/Pin - #10-24 x 1/2" - Stainless Steel (100 Pack)

Item No. 6420110

Features, Advantages, and Benefits

- These T-27 Torx screws are used together with T-27 barrel nuts where tamper-proof installation hardware is preferred

- T-27 Fasteners
- Satin finish
- Stainless steel construction

Description: Overview These one-way shoulder screws are constructed of stainless steel and come in a satin finish. They feature a tamper-proof head which prevents them from being loosened and removed once installed. These fasteners are manufactured with #10-24 threads and have a reach of 1/2 inch, with a 1/4 inch outside diameter shoulder, and a 7/16 inch head diameter. One-way screws like these are commonly used with one-way barrel nuts in commercial restroom applications. The security drive heads of these fasteners allow for easy installation with a flat screwdriver, but require the use of a one-way screw remover tool for loosening and removing. See item number 650-7901 for screw sizes 6-8, model number 650-7902 for sizes 8-10, and model number 650-7903 for sizes 12-14, or model number 650-7904, which includes one of each one-way screw remover hand tools.
