

FHC Two Piece Wall Brackets - 2-1/2" - Zinc Alloy - Chrome Plated Finish With Torx Fasteners (Set)

Item No. 6566437T

Features, Advantages, and Benefits

- Restroom partition hardware used to replace broken or missing L-shaped wall brackets

- Fits all panel thicknesses
- Chrome plated finish
- Zinc alloy (cast Zamak) construction
- All fasteners included with this kit feature T-27 Torx security drives

Description: Overview These L-shaped wall brackets are constructed of zinc alloy (cast Zamak) and they come in a chrome plated finish. They feature 1-1/2 inch ears with 2-1/2 inch arms, and they are adjustable to accommodate all panel thicknesses. These wall brackets are manufactured in alternate material and finishes to match existing hardware. L-shaped brackets like these are versatile, used by many, and they are simple to install. This two-piece set of wall brackets includes all the fasteners necessary for its complete installation. The T-27 Torx security fasteners included with this item feature tamper-resistant 6-lobe security drives with center pins.
