- Diecast Zamak construction
- Fasteners included: 2 chrome one-way oval head screws (#8-32 x 1-1/8 in.) and 2 chrome unslotted barrel nuts (#8-32 x 1/2 in.)

Description: Overview This diamond shaped slide latch is constructed of diecast Zamak and comes in a polished chrome plated finish. It is surface mounted and features a 2-3/4 in. mounting hole spacing, measured from center to center with a 1 in. bolt throw. This surface mounted slide latch includes chrome plated one-way oval head screws and unslotted barrel nut fasteners, required for installation. This toilet partition slide latch is used by many and is easy to install. This item does not include a strike or keeper.
