- 2-1/8 in. diameter base, 2 in. projection, 5/16 in. deep rubber tip
- Chrome plated finish
- Zinc alloy (cast Zamak) construction
- Installation fasteners are included with this item

Description: Overview These wall mount door stops are constructed of zinc alloy (cast Zamak) and come in a chrome plated finish. These door stops feature a 2-in. projection and a black rubber tip. They are designed for use with all swinging doors and have 1-5/8-in. mounting hole centers. Door stops like these are designed to prevent damages from hard closing doors to adjacent walls and furnishings, in addition to the door's own knob or lever hardware. Wall-mounted door stops like these are easy to install and are used by many. Tamper resistant, one-way fasteners are included with each stop.
