

FHC Door Pull - 2-3/4" Hole Centers - Zamak Construction - Chrome Finish (Single Pack)

Item No. 6566644

Features, Advantages, and Benefits

- This hardware is used with restroom partition door panels in new installs, and for repair or replacement projects

- 4-1/16 in. overall height
- Chrome plated finish
- Zinc alloy (cast Zamak) construction
- 2 one-way fasteners are included with each pull

Description: Overview These door pulls are constructed of Zamak (zinc alloy) and come in a chrome plated finish. They feature a 2-3/8 in. grip area and a soft arch design. Partition door pulls like these are used by many and are easy to install. These pulls are used on restroom stall door panels for new installs, and for the repair or replacement of damaged or missing hardware.
