Description: OverviewThese door holders are constructed of a heavy cast iron material and come in an aluminum colored, painted finish. Each of these door holders feature a 4 inch, drop-down reach and have replaceable gray rubber tips. These kick stand type, drop down door holders are designed for use with all swinging doors in both residential and commercial applications. They also feature a spring-loaded mechanism that helps keep them in the upright, stored position when not in use. Door holders like these are designed to hold swinging doors open at a desired location, with replacement tips available under model numbers 658-1053 (gray), or 658-1052 (black). Door-mounted holders like these are easy to install and are used by many. Installation fasteners are included with each door holder.
