

FHC Aluminum Screen Door Latch And Strike - For International Window Company

Item No. A140

Features, Advantages, and Benefits

- Used on sliding screen patio doors manufactured by International Window Corporation

- Non-handed for left or right sliding patio door handles
- Secures sliding screen patio door from accidental opening from pets
- Aluminum keeper and nylon latch
- Twin hooks engage the keeper

Description: Overview This latch and keeper assembly fits onto International brand screen doors. The keeper has mounting holes 3-1/2 in. on center, and is adjustable up or down as needed. The nylon latch fits into an aluminum slide lever that is part of the sliding screen door frame. As it slides up or down, the twin hooks engage the keeper that is installed onto the door jamb.
