

# **FHC Sliding Screen Door High Density Polyethylene Roller - Bolt - Nut And High Density Polyethylene Bushing (2-Pack)**

**Item No. B555**

**Features, Advantages, and Benefits**

- Used on bottom mount installations
- 5/16 in. wide
- Concave (grooved) roller
- Includes 1/4 in.-20 x 3/4 in. carriage bolt with nut and High density polyethylene bushing
- Used on sliding screen doors and some glass patio doors
- 1-1/4 in. high density polyethylene roller

**Description:** Overview This is a roller is used on bottom mount installations. It is a 1-1/4 in. high density polyethylene roller with a 3/8 in. axle hole. The 1/4-20 x 3/4 in. carriage bolt inserts into the 3/8 in. diameter high density polyethylene bushing which allows the roller to turn on the bushing/axle smoothly. The carriage bolt is then secured in the bottom rail with a nut.
