

FHC White Plastic - Sliding Screen Door Roller - For Andersen Doors (2 Pack)

Item No. B684

Features, Advantages, and Benefits

- Used by Arcadia and a variety of other sliding patio screen manufacturers
- Height adjustment is on the side of the housing

- 1 inch diameter polyethylene roller
- High density white polyethylene outer housing
- Aluminum inner housing

Description: Overview Are you having trouble sliding your screen door open or closed? Have you checked your rollers/roller assemblies? Don't replace the entire door. For a fraction of the cost of a new door, replace those worn-out rollers. This Andersen roller assembly is an insert style with mounting tabs and include installation screws. The high density polyethylene housing has an aluminum inner housing with a 1 Inch high density polyethylene roller. This roller assembly is used on the 200 Series Perma-Shield Gliding Doors and 400 Series Frenchwood doors. Height adjustment is down from the side rather than the top or the edge of the door. Order yours today and have your door slide like new.
