Item No. C1308

Features, Advantages, and Benefits

- Used by a variety of sliding patio door manufacturers
- Right handed from the outside looking in
- Upper body thumbturn
- White diecast construction
- Mortise latch is included

Description: Overview This patio door handle set is a multi-point lock set that comes with a white right-handed inside handle and an upper body thumbturn. The inside handle mounts onto a mounting bracket that is installed onto the door. The outside handle is a white diecast pull that can be keyed with the Prime-Line part E 2000 cylinder. This set is often used on vinyl or wood patio doors. The set comes with a unique keeper and multi-point lock.
