- The T-shaped tab (K-tab) is simply slid up into a T-shaped receptacle in the bottom of the patio door
- 1-1/2 in. diameter concave ball bearing roller

- Stamped steel body and roller
- Rear adjusting screw

Description: Overview This is a K-tab patio door roller assembly with a 1-1/2 in. concave nylon ball bearing roller. The T-shaped tab (K-tab) is simply slid up into a T-shaped receptacle in the bottom of the patio door. No screws are required. The housing is 3/4 in. wide and 1-1/4 in. tall with a 7/8 in. dimple width. The dimples secure it within the door's bottom frame. Used by International and a variety of other sliding door manufacturers.
