

## **FHC Door Rollers - 1-1/4" - Precision Wheels - Stainless Steel Ball Bearings**

**Item No.** D2034

### **Features, Advantages, and Benefits**

- These rollers are used to replace and repair the damaged, or missing sliding door wheels on sliding patio doors and screen doors
- 5/16 in. wheel width, 3/8 in. hub width, 1/4 in. inside diameter, 1-1/4 in. outside diameter

- Constructed of stainless steel
- Wheels feature a milled finish
- 2-pack

**Description:** Overview These patio door and screen door rollers are constructed of a stainless steel wheel and stainless steel ball bearings. These replacement wheels have a concave (center grooved) edge and are for use over raised-edge, sliding door tracks. This type of sliding door roller is used in severe weather environments where corrosion is a problem.
