

FHC Chrome Plated - Dead Latch Door Strike (2 Pack)

Item No. E2234

Features, Advantages, and Benefits

- Constructed from stamped steel
- 1-5/8 inch mounting holes
- Typically used on most door jambs as a door strike
- Comes in a stylish chrome plated finish

- Mounting hardware included
- A Phillips head screwdriver is required for installation

Description: Overview These standard latch strikes are constructed of steel and come in a chrome plated finish. They feature an adjustable tab designed to eliminate the door slop and chatter of closed doors, and they're installed with two #8 x 1 inch fasteners included with each package. These latch strikes are used by many to replace most residential interior and exterior door strikes. Adjustment tip: to eliminate the loose rattling of a closed door, remove the strike plate and bend the tab slightly with a pair of pliers, adjusting left to right as necessary.
