**Description:** Overview These single hung window latches and pulls by Prime-Line Products are constructed of black plastic and have a steel clip on one end, made of durable spring steel. They measure 3/32 in. in thickness and have a 2 in. reach. These latches are used on vertical sliding single hung windows manufactured by Phillips Industries. One pair of spring-loaded latches is included with each pack. For best results, follow the installation instructions included with each package.
