

FHC Prime-Line H 3600 Ring Type Casement Locking Handle - White/Bronze

Item No. H3600

Features, Advantages, and Benefits

- Heavy bronze casting construction
- Ring in handle for upper story applications

- Used on steel windows
- 1-3/8 in. hole

Description: <h2>Overview</h2><p>This casement locking handle is constructed from heavy bronze casting. A hole in the lock handle allows it to be used in an elevated location, for pole operation. This type of locking handle is used on steel windows.</p>
