Description: Overview These channel balance accessory kits include components constructed of nylon and steel, and are used in combination with double hung and single hung, vertical window channel balances. Each kit includes 2 nylon top guides (Prime-Line part FS100), 2 nylon bottom guides (Prime-Line part FS152), 2 steel take-out clips and 4 metal rivets. These channel balance accessories are used by many manufacturers and service centers to repair damaged components, and for the construction of new channel balances with guides attached.
