

# FHC 3-15/16" White High Impact Plastic Right-Hand Casement Operator Cover (Single Pack)

**Item No.** H4060

## **Features, Advantages, and Benefits**

- Fits right-handed Pella operators, when handing is viewed from the inside looking out
- Cover measures 3-15/16 in. overall width, with 7/8 in. height
- White colored plastic matches existing hardware and is easy to clean
- Constructed of high-impact plastic, provides for long-life expectancy
- Easy snap-on design eliminates the need for fasteners and tools
- Helps to block access of insects and dust

**Description:** Overview This casement operator cover is constructed of high-impact plastic and it comes white in color. It is handed for right-hand casement operators, handing determined when viewing window from the inside looking out. (Note: if viewing the window from the outside looking in, this cover would be considered a left-hand operator cover.) This cover fits Pella operators and features an easy to install snap-on design. Use this cover to block access of insects and dust, and to conceal unsightly gears of right-handed casement operators. This cover is easy to install and used by many.
