

## **FHC Bronzed Diecast - Extension Bolt - Flush Mount (Single Pack)**

**Item No.** J4532

### **Features, Advantages, and Benefits**

- Constructed of flattened steel wire, rolled and bent to shape
- Pins come in corrosion resistant, zinc plated finish and can be used in many outdoor applications

- Designed for use with small to large applications in a variety of industries, to include farming, automobile, recreation and many more
- Features a bulbous end that prevents the pin from being pulled through the hole it is inserted into, when correct size is used
- Easy to install with only a few simple tools

**Description:** Overview This is a bronze finish flush extension bolt usually used on commercial aluminum or steel doors. The unit fits into the door at the bottom or the top with a flush lever that operates the extension bolt up or down. The extension bolt rod is adjustable from 8 in. to 10 in. and has a nylon tip treaded onto it. Fasteners and the flush bolt guide are included.
