

## **FHC 1-1/2 x 36" Clear Flat Bottom Seal (Single Pack)**

**Item No.** M6226

### **Features, Advantages, and Benefits**

- Used to fit most older swinging shower doors
- Is 36 in. long
- Is 1-1/2 in. wide
- Clear vinyl construction

- Can be cut to length

**Description:** Overview This is a universally used clear flat style shower door sweep that is 36 in. long and 1-1/2 in. wide and can be cut to desired size. It is held onto the swinging shower door by a drip rail that is located on the bottom of the door. Easy to install, just remove the screws from the metal strip holding the old sweep and remove. Cut the new sweep to size, determine how far down the sweep needs to hang and install by replacing the drip rail over it. Then re-install the screws.
