**Item No.** U9140B

## **Features, Advantages, and Benefits**

- Used to protect interior walls from impact damage by shielding contact point of wall and door knob
- 5 in. overall width of hexagon shaped wall protector
- Ivory in color
- Rigid vinyl construction
- Self-adhesive backing

**Description:** <h2>Overview</h2><p>These hexagon shaped wall protectors are constructed of rigid vinyl and they come in an ivory color. They feature a self-adhesive backing which allows them to be easily mounted in place. Designed to protect interior walls from impact damage by shielding between the point of contact of the walls and door knobs. Wall protectors can sometimes be used also to conceal small holes in walls caused by door knobs.</p>
