Item No. N6548

Features, Advantages, and Benefits

- Used by Acme, Stanley and a variety of other wardrobe door manufacturers
- Adjustable 2 piece top mounted bracket assembly
- Easy slip in design
- Stamped steel bracket with nylon roller assembly

- 7/8 in. diameter roller
- 1 pair, left and right

Description: Overview This is a set of handed, top mounted wardrobe door roller assemblies that have an adjustable height feature. They are left and right assemblies with a 7/8 in. convex nylon roller that hang in a track mounted above. They also work as corner brackets holding the sides and the top rail together. Used by Acme and Stanley door systems.
